SUMMARY

Skilled JavaScript Developer with expertise in React.js, Next.js, and NestJS, specializing in building large-scale, efficient, and scalable web applications. Proficient in developing both frontend and backend solutions, with extensive experience in creating optimized user interfaces and implementing robust RESTful APIs. Strong background in leveraging NestJS to design scalable and maintainable backend architectures for complex projects.

SKILLS

- Programming Languages: Python (including LLMs for NLP tasks), JavaScript, TypeScript
- Web Development:
 - **Backend:** Django, Node.js, Express.js, NestJS (for scalable applications)
 - **Frontend:** React.js, Next.js
- APIs: Proficient in RESTful API design and integration
- Database: MySQL, PostgreSQL, Sequelize ORM, TypeORM

EXPERIENCE

JavaScript Developer (Remote)

Start-up Company | January 2023 – September 2024

- **React.js:** Developed and maintained dynamic, responsive user interfaces for scalable web applications.
- **Next.js:** Built server-side rendered applications and optimized performance for SEO and fast load times.
- **NestJS:** Designed and implemented scalable backend services, ensuring efficient RESTful API integration and backend logic.
- **JavaScript:** Developed interactive and efficient web components, ensuring seamless user experiences.
- Collaborated with cross-functional teams to deliver high-quality, production-ready software products.
- Integrated PostgreSQL and MySQL databases to optimize data management and performance.

Projects:

1.Food Delivery Website

Developed a full-stack food delivery platform using **Next.js** for frontend, **NestJS** for backend, and **MongoDB** for data storage. Implemented real-time order tracking, user authentication, and integrated third-party payment APIs.

2. Blogging Website

Built a React.js and Django blog on AI's impact on cryptocurrency, covering trading, security, and more.[to view project](#)

3. LLM Models & Chatbots

Integrated LLMs (Llama3, Mixtral, GPT-4o, etc.) with React.js and Django for enhanced user interaction.[to view project](#)

4. Text-to-SQL Chatbot

Developed a chatbot using Llama3 to convert text to SQL queries and generate histograms.[to view project](#)

5 Email-Agent

Created AI agents with Llama3-70b-8192 for automated email processing and personalized responses.[to view project](#)

EDUCATION

BSCS **The University of Lahore**

I.COM **Unique group of college**

Matric **Computer Science**
