SUMMARY

I am a skilled AI/ML specialist with expertise in fine-tuning and optimizing models like GPT and llama3. Experienced in Python and Django, I specialize in developing generative AI solutions using LLMs such as OpenAI models, LangChain, and RAG. Passionate about leveraging AWS for scalable solutions and enhancing NLP capabilities. Completed a final year project focused on Generative AI, Chatbots, and fine-tuning LLMs using Django and React.js.

SKILLS

- Programming Languages: Python (including LLMs for NLP tasks), JavaScript, TypeScript
- AI/ML Frameworks: OpenAI models, LangChain, RAG
- Web Development:
 - Backend: Django, Node.js, Express.js
 - Frontend: React.js
- APIs: Proficient in RESTful API design and integration
- Database: MySQL, PostgreSQL, Sequelize ORM, TypeORM

EXPERIENCE

Full Stack Developer

- Start-up Company| January -2023 June--2023
 - **React.js:** Developed and maintained dynamic user interfaces for web applications.
 - **Django:** Designed and implemented robust backend solutions for web services.
 - **JavaScript:** Built interactive and responsive web components.
